“The Ohio Trucking Association commends and thanks the Ohio Department of Transportation and the DeWine Husted Administration for allowing food trucks to operate temporarily at rest areas. The availability of food for truck drivers has become very challenging in the past few weeks and while our Truck Stops and Travel Plazas have done an amazing job adapting to this new operational environment the availability of food on the road has been more complex. Allowing food trucks at rest areas will allow the professional men and women delivering critical products the ability to get a much-deserved hot meal with a home cooked feel.”

- **Thomas A. Balzer, CAE, President & CEO, Ohio Trucking Association & Ohio Association of Movers**
